World Travel Catering & Onboard Services
EXPO | 6 - 8 APRIL 2027 HAMBURG, GERMANY

WTCE Bronze Shell (with graphics) Specification Sheet

* *Image above is an example of a 4m x 3m stand with 1 corner. Please refer to the individual stand plan sent to you by the stand builder for the dimensions and layout of your stand.*

Shell Build

- Stand partition walls to the neighbouring stands / hall walls including necessary supporting walls, height 2.50 m; seamlessly integrated graphics into the aluminium frame system allowing for a frameless look.
- Fascia board on the open sides of the stand, side wall panel HxW approx. 250x30cm, incl. company name and logo.
    - The company name printed onto the nameboard is the name recorded in your Exhibitor Portal. If you have registered sharers on your stand, their company name will not be included. Any name change request after Tuesday, 9 March and any alteration made onsite will be subject to a fee.
- Delivery date for the graphic files is specified by the stand builder Lüco upon order confirmation and dispatch of the stand sketch. Once the sketch has been sent, customers are granted access to their own print cloud so they can upload the print-ready file. Please note that changes to the graphics will not be possible after installation.
- Blue carpet
    - Carpet colour can be changed as soon as the stand builder contacts you. (standard colours only). Change to a non-standard carpet colours will be subject to a fee.
- 1x wastepaper basket included
- See end of this document for the panel and fascia dimensions.

Electrics & Lighting

- 1x LED long-arm spotlight 20W per 3sqm stand area
- 1 x 3kW mains supply including consumption
- 1 x European power socket

If you wish to order additional lighting or electrics, please contact **HMC Customer Services** directly to place your order.

During build-up stand power will only be switched on if there is no danger from the electrical stand installation (open cables, incorrect lighting installations or other visible electrical defects).

The power to all stands will not be switched off overnight during the event. Only in case of maintenance work there may be a power cut for the duration of the work. If you require permanent 24-hour power for the show open period, please remember to order an UPS (uninterruptable power supply) directly with **HMC Customer Services**.

For safety reasons, the power supply is usually switched off on the last day of the event one hour after the event closes. If you require power after it has been switched off and for the duration of breakdown, please contact **HMC Customer Services** or order via online shop at an additional cost (item no. 3110910C).

Basic guidelines for socket outlets (AC feed up to 3kW):

500 watt socket	PC Computers, TV's, videos, spotlights to 500w & refrigerators
1000 watt socket	Domestic filter coffee machines & lighting up to 1000w
2000 watt socket	Kettles* & machinery up to 2000w
3000 watt socket	Hired coffee machines, machinery 2000w - 3000w

Please note that you may have an electrical fuse box on your stand which will be positioned in the top right corner of your back wall. Charges may apply onsite to move these boxes.

Cleaning

- Daily cleaning service (carpet, tables, counters and chairs)
- 1 x 60l waste bag per open day including disposal

If you wish to order enhanced cleaning, please contact **HMC Customer Services**.

Furniture

No furniture is included with WTCE Bronze Shell package. If you wish to add a furniture package, please contact the **WTCE Sales Team** to order this.

Shell Scheme Accessories & Extras

If you require additional storage space, please upgrade your Bronze Shell Package to Silver or Gold Shell package. To arrange this, please contact the **AIX Sales Team**.
Additional shell scheme accessories can be added at your own expense via online shop.

The deadline for HMC orders is 9 March 2027. After this deadline prices will increase by 20%. Please note that all HMC service orders are subject to availability regardless of this deadline.

Shell FAQ’s:

Can I mount a TV onto the wall or can I hang wall shelves?

Yes, that is possible. Please note, however, that this will require one or more reinforced wall panels, as well as close and timely coordination with the stand builder. Please take the space for displays, wall shelves and so on into account when planning your graphics. Use for example item no. L204112C for reinforced wall element to mount a display or item no. L403044C for white wall shelves.

The **HMC Customer Services** will be glad to assist you in case of any questions.

Can I drill into the walls?

The walls consist of fabric for textile printing so there is no hard board filling to drill into. It will require one or more reinforced wall panels if you like to mount something to the wall. Please take this space into account when planning your graphics.

Layout (Technical Data Sheet)

Please refer to the individual stand plan sent to you by the stand builder for the exact print dimensions and layout of your stand.
